Ancient Stones Of Dorset

Maiden Castle is an Iron Age hill fort 1.6 mi (2.6 km) south west of Dorchester, in the English county of Dorset. Hill forts were fortified hill-top settlements constructed across Britain during the Iron Age.. The earliest archaeological evidence of human activity on the site consists of a Neolithic causewayed enclosure and bank barrow.In about 1800 BC, during the Bronze Age, the site was used ...

Maiden Castle, Dorset - Wikipedia

The Icelandic Saga of Erik the Red and the Greenland Saga characterized Helluland as a land of flat stones (Old Norse: hella).Most scholars agree that Helluland corresponds to Baffin Island in the present-day Canadian territory of Nunavut.. From the testimony of the sagas, the Norse explorers probably made

Analysis of many suggests an alignment with the stars, moon or sun at various times of the year. Out-lying stones, often forming straight lines towards the circles might indicate ancient pathways, some would argue that they tie in with energy, or ley, lines. Many stone circles have been extensively dowsed to find such links.

Between 500 B.C. and 1000 A.D. the Dorset culture is established in the area. The area becomes colder, and the hunting grounds are extended. The populations are larger, the houses are more inhabited and semi-subterranean, of stone and turf. In them many animal remains are found. Stone lamps appear at this time, invented for ice houses, or igloos.

Horsetail (*Equisetum arvense*) is an herbal remedy that dates back to ancient Roman and Greek times. It was used traditionally to stop bleeding, heal ulcers and wounds, and treat tuberculosis and kidney problems. The name *Equisetum* is derived from the Latin roots *equus*, meaning "horse," and *seta*, meaning "bristle.". Horsetail contains silicon, which helps strengthen bone.
