My LG TV won't turn on and the red light is static (as it means the TV is turned off). But, when I press the on button on the TV remote, the red light repeatedly dims then goes back to full red until I press the on switch on the TV remote again to turn it off. This happened out of nowhere. I was simply playing on my PS3 and the TV just went off.

The TV also comes with an over the air LG TV service. That was completely unexpected. I confused that with the cable provided by my Spectrum cable box. Once I realized what was happening I was pleasantly excited. I don't know if I will use it, but considering the cost of cable it is something I will investigate further.
