Code Get More

**Metaprogramming  
Elixir: Write Less  
Code, Get More  
Done ...**

Last year, my co-contributor to Exercism.io wrote a fantastic article about writing a TypeScript code analyzer, and I wanted to follow up by sharing my thoughts and experiences writing one for Elixir.. In case you have not

# Read Free Metaprogramming

Elixir Write Less

yet read that article,  
Exercism.io is a free  
platform designed to  
help you improve your  
coding skills through  
practice and  
mentorship.

## **Writing an Elixir Code Analyzer (with metaprogramming**

...

Metaprogramming is  
the process of using  
code to write code. In  
Elixir this gives us the  
ability to extend the

# Read Free Metaprogramming Elixir Write Less

language to fit our needs and dynamically change the code. We'll start by looking at how Elixir is represented under the hood, then how to modify it, and finally we can use this knowledge to extend it.

## **Metaprogramming · Elixir School**

Metaprogramming, which we previously defined as « code to generate code » could be achieved by

# Read Free Metaprogramming

generating raw Elixir code (as strings) but it would be unefficient and hardly maintainable. That's why Elixir provides API's to generate and evaluate AST. Here comes quote: an Elixir primitive which can convert any Elixir code into its AST.
