Aluminum. Aluminum siding is known as the cheaper alternative to vinyl siding. However, that may come at its own price. Aluminum is cheaper because it's less durable than the other types, so it may not last as long. Other types of siding would also increase your home's curb appeal better than aluminum would.

The EZ36D engine had a die-cast aluminium cylinder block with 92.0 mm bores and a 91.0 mm stroke for a capacity of 3630 cc. For the EZ36D, sintered iron pieces within cylinder block controlled thermal expansion of journal clearances during warm-up; according to Subaru, the iron pieces also relieved shocks to the crankshaft journals and reduced overall vibrations.
