The Self Illusion Why There

Hood's thesis is that the self is an illusion, but what this means is not clear. He uses the analogy of a Kanizsa triangle to illustrate the idea that the "self" is carved out of the negative space created by social and cultural interactions. It's an interesting analogy but as far as I can tell it doesn't lead anywhere.

The Self Illusion: Why There is No 'You' Inside Your Head

...

To give a very general overview - the self is an illusion (note: often times when people hear this sort of phrase they assume it means X doesn't exist; it just means it does not exist *as we naturally understand it), a malleable narrative that relies almost

The Self Illusion: Why There Is No You Inside Your Head

...

Illusions are experiences in the mind, but they are not out there in nature. Rather, they are events generated by the brain. Most of us have an experience of a self. I certainly have one, and I do not doubt that others do as well – an autonomous individual with a coherent identity and sense of free will.
