The Transistor is the powerful weapon you'll use throughout the game and can be configured in thousands of different ways for many viable tactics. Some configurations favor use of Turn (), the game's strategic planning mode, while others are optimized for real-time combat -- and everything in between!

Mastering Transistor - Tips From The Developer - Game Informer

From Transistor Wiki. Jump to: navigation, , search. I think I have found one of the best end game builds out there. It involves utilizing Jaunt's low Turn cost for a lot of damage and it uses Void to stun enemies and debuff them making them easier to kill. It also utilizes a lot of the healing talents to make yourself really tanky.
