The majority of design projects benefit from a limited number of fonts — two or three is a good rule of thumb. Too many types and styles of fonts can make your design look amateurish and thrown together, rather than professional and well thought out. Sticking to a more conservative approach to typography keeps your design looking clean and ...

2. How to Pair Fonts. Pairing fonts is part technical and part intuitive process, just like art. Let's say that contrast is the glue that holds two fonts together. If the fonts are too similar, it requires a lot of brain power to spot these tiny differences. It's uncomfortable. So, our eyes hate ambiguity and love contrast. Now what does it ...
